

CVT BELTS BUILT FOR THE TOUGHEST TRAILS

NEW
G-FORCE REDLINE™

G-FORCE™ C12™

G-FORCE™

THE G-FORCE™ FAMILY

Gates G-Force is an entire family of superior CVT belts engineered for the most demanding conditions – providing an OE-Perfect Fit with matching shift curves & pulley speed ratios.

G-Force drive belts are made in the USA, field-tested, and trusted within the toughest conditions to bring durability, simplicity, performance, and value to your off-road adventures.

G-Force RedLine™

Our newest G-Force CVT belt developed from the most advanced materials. Extensively lab and field-tested, Gates G-Force RedLine CVT belts are engineered to handle the wildest rides required for the dunes, deserts, mountains, and race-day.

Built to withstand extreme friction, severe compressive force, and excessive heat created from high-acceleration, frequent back-shifting, and heavy loads.

- Delivers 75% greater dynamic axial stiffness on average, up to 50% lower speed losses and better recovery from temperatures up to 338°F (170°C) without power loss.
- Best within extreme off-road environments: better acceleration, higher top speed, less speed ratio & energy loss
- Greater heat resistance & recovery – even under severe duty cycles
- Extremely fatigue resistant
- Improved durability, crack & wear-resistance

G-Force™ C12™

The industry's first true carbon tensile cord CVT belt - powering through the toughest off-road trails with minimal stretch and extraordinary strength.

- Excellent heat control & flexibility
- Improved throttle response and acceleration
- Maintains peak power throughout the shift curve

G-Force™

The workhorse of the family, G-Force CVT handles everything from a hard day's work to a road less traveled.

- Delivers performance, durability, simplicity & value in off-road environments
- Flexible, high-performance materials enable responsive acceleration
- Extended Life – outlasting other aftermarket belts

WHAT'S THE RIGHT CVT BELT FOR ME?

UTV/ATV VEHICLE TYPE	G-FORCE™ CVT BELT	G-FORCE™ C12™ CVT BELT	G-FORCE REDLINE™ CVT BELT
Low-range engine size, stock vehicle (≈150-399cc)	ACCEPTABLE	BEST	NOT AVAILABLE
Mid-range engine size, stock vehicle (≈400-799cc)	ACCEPTABLE	BETTER	BEST If available
High-range engine size, stock vehicle (≈800-1100cc)	NOT RECOMMENDED		BEST G-Force RedLine was specifically designed for these newer vehicles and turbo options
Extremely high-range engine size, stock vehicle (up to 1300cc)			
Extensive aftermarket vehicle/engine modifications/turbo-charging			

DRIVEN BY POSSIBILITY™

High Tensile Aramid Cord

Maximizes acceleration, shock load resistance, and extreme fatigue resistance
G-FORCE REDLINE™ & G-FORCE™

Carbon Tensile Cord

Minimal stretch and extraordinary strength for faster acceleration, improved throttle response, and consistent shifting performance
G-FORCE™ C12™

Aramid Fiber-Loaded Ethylene Elastomer

Maximum stiffness & heat resistance for higher loads, higher peak torque, less heat fade, and less speed loss
G-FORCE REDLINE

Aramid Fiber-Loaded Chloroprene

Durability & optimized performance
G-FORCE C12 & G-FORCE

Trapezoidal Top Notch with Rounded Bottom Cog
Delivers exceptional flexibility, heat dissipation & efficiency

Specially Formulated Adhesion Gum
Extends belt service life

Fabric Cog Jacket
Smooth shifting & higher abrasion resistance

NEW BELT BREAK IN PROCESS:

Properly break in your new G-Force belt and prevent premature failure.
